Note for Coaches, Parents, Teachers, and Trainers

This collection of problems opens a series of a new kind of problem books. Some of the problems in it may seem absurdly simple to experienced chessplayers or coaches. But that isn't the case – the simplicity of our problems is superficial. If the required attention hasn't been paid in the past to the development of these kinds of simple problems, that highlights the fact that there are still many blank spots in the matter of how to begin teaching the game of chess. This has to do with the fact that, in every country in the world, these problem books are written by strong practical players, for whom certain subjects seem too simple to be worth any attention at all. Such authors don't take into account the fact that the earliest stage of instruction deserves closer attention.

As a result, in previously published problem collections, a large stratum of useful chess exercises has remained unrevealed. The main goal of our series of problem books is to correct this omission.

In order for the beginning chessplayer to learn to play chess well later on, the coach should first help him or her to establish a solid foundation. To this end, beginning players should first get the feel of the possibilities of each piece separately, and also familiarize themselves with the comparative strengths of the pieces. Our series of thematic exercises with a small number of pieces on the board serves this purpose.

Problem books are written by strong practical players for whom certain subjects seem too simple, leaving many useful chess exercises unrevealed...

At the same time problems from the so-called "pre-checkmate" period play a very important role in the initial stage of instruction. Very often there aren't even kings in these diagrams, such that in order to win you simply have to eliminate or immobilize all your opponent's pawns or pieces (as in checkers – play for a wipeout).

The point of these exercises isn't to deliver mate, but to acquire various chess skills, to master the simplest methods of attacking and defending. The purpose is to teach the student to see the chess board, to find hidden threats and connections between different pieces, and to understand how to coordinate the pieces to achieve one goal or another.

By using our problem book, in the course of initial study beginning chessplayers can: 1) familiarize themselves with the possibilities and comparative strengths of each piece; 2) learn to attack one piece with another piece; 3) learn how to restrict the mobil-

ity of their opponents' pieces; 4) learn to see guarded and unguarded pieces on the board; 5) learn to deliver double attacks; 6) learn to find defensive moves; 7) learn to use pins for attack and defense; 8) learn to choose the best capture from several possibilities; 9) master the typical methods of fighting with the various pieces against pawns; 10) learn to see opportunities to announce check in any position; and 11) completely master the rules of the game.

In general, in order to achieve success in chess three stages of instruction need to be covered thoroughly: 1) the "pre-checkmate" stage – here, students should develop a feel for the "pre-checkmate" harmony of the pieces in both attack and defense; 2) the stage of giving mate in one – here students should get a feel for the harmony of the pieces when checkmating; 3) the checkmate stage – here students should get a feel for the harmony of the pieces when using a mate threat. Having said that, the younger the student, the longer the first two stages should last.

This first problem book allows us to work through the first ("pre-checkmate") stage, while the second and third books focus on working through the second stage (giving mate in one). Subsequent collections will help students and coaches to work through the third (mating) stage.

Capturing

White to move: Can White take Black's rook?

Pieces under attack

Black to move: Take one of the white rooks.

To take or not to take?

White to move: Should White take (will Black take the white rook in reply)?

The best move

Black to move: Which rook should Black take, so that after the exchanges Black has more rooks than White?

The Bishop

Capturing

White to move: Can White take the black bishop?

The Bishop

Under attack

Black to move: Take the white bishop.

The Bishop

A choice

White to move: Which of the white bishops can capture?

Attacks by the rook

White to move: Attack the bishop with the rook in two different ways.

Bishop attacks

Black to move: Attack the rook with the bishop.

Double attack by the rook

White to move: Attack both bishops with the rook.

59

Double attack by the bishop

Black to move: Attack both rooks with the bishop.

Laser attack by the rook

White to move: Win a bishop — put the rook on the same rank or file as the two bishops.

Laser attack by the bishop

Black to move: Deliver a laser attack — put the bishop on the same diagonal as the rooks.

Capturing

White to move: Take the undefended black piece.

The pin

White to move: After which move by White does Black lose either the bishop or the rook, no matter what?

Escapes

Black to move: How does Black avoid losing material?

Defending

White to move: How does White avoid losing a piece?

Exchanging

Black to move: Force the exchange of a white piece.

107

Combinations

White to move: Find the best maneuver.

The Queen

Capturing

White to move: Can White take Black's queen?

Attack on the rook

Black to move: Attack the rook with the queen (but don't put the queen under attack).

Attack on the bishop

White to move: Attack the bishop with the queen (but don't put the queen under attack). Find three different ways.

Double attack

White to move: Attack both bishops with the queen (but don't put the queen under attack).

Double attack

Black to move: Attack two pieces with the queen (but don't put the queen under attack).

Defending

White to move: How can both pieces be saved?

Capturing

Black to move: Take the undefended piece.

The pin

White to move: Find the best chance.

Restricting mobility

Black to move: Force the white queen to go into an exchange.

Escapes

White to move: Find the best move.

Capturing

White to move: Can White take the black knight?

The knight under attack

Black to move: Which knight can be taken?

Running past the guard

Black to move: Where should the black knight jump?

To take or not to take?

White to move: Is it a good idea to capture the black knight?

Restricting mobility

Black to move: Which move leads to capturing the white knight?

The rook tames the knight

White to move: Which maneuver leads to capturing the black knight?

The bishop tames the knight

White to move: Catch the black knight in a trap — in one move, take away all of its retreat squares.

The queen tames the knight

Black to move: Catch the white knight in a trap — in one move, take away all of its retreat squares.

Attacks by the knight

White to move: Attack an enemy piece with the knight.

Double attack

Black to move: Attack two white pieces with the black knight.

Capturing an undefended piece

White to move: Take an undefended piece with the knight.

237

Defending

Black to move: How to save the piece?

The pin

White to move: Win a piece.

Escapes

Black to move: Find the best chance.

Capturing

White to move: Can the black pawn be taken?

The only move

Black to move: There is only one possibility.

Captures

White to move: Which pawn can be taken?

To take or not to take?

Black to move: Should Black take White's pawn?

The best capture

White to move: Which pawn is better to take?

Restricting mobility

Black to move: Find the best opportunity.

The blockade

White to move: How to prevent Black from making a move in reply?

Pawn promotion

Black to move: Which piece should the black pawn be promoted to, so that the white pawn is under attack?

The breakthrough

Black to move: Which maneuver allows one of the black pawns to promote to a queen first?

The breakthrough

White to move: Which maneuver allows one of the white pawns to promote to a queen first?

318

317

Attacking

White to move: Attack a black piece with a pawn.

Double attack

Black to move: Attack two white pieces with a pawn.

61

330

Capturing an undefended piece

White to move: Take an undefended piece.

The pin

Black to move: Win a piece.

Defending

White to move: Defend a pawn or a piece that is under attack.

Escapes

Black to move: Save a pawn or a piece.

Restricting mobility

White to move: How to stop the black pawn?

Rook against two pawns

White to move: Find the way to defeat the pawns.

Two pawns against a rook

Black to move: Promote at least one of the pawns to a queen.

Bishop against two pawns

White to move: Find the path to victory.

Two pawns against a bishop

Black to move: Promote at least one of the pawns to a queen.

Knight against two pawns

White to move: Find the path to victory.

Two pawns against a knight

Black to move: Promote at least one of the pawns to a queen, or trap the knight.

Queen against two pawns

White to move: Find the path to victory.

Queen against three pawns

Black to move: Find the path to victory.

The King

Safe squares

White to move: Where can the white king go? Find one or two possibilities.

Attacking

Black to move: Attack a white pawn or piece with the black king.

Double attack

White to move: Attack two black pieces or pawns with the king.

King against two pawns

White to move: Find the best move.

Trapping the rook

White to move: Catch the rook.

Trapping the bishop

Black to move: Catch the bishop.

Trapping the queen

White to move: Catch the queen.

Trapping the knight

Black to move: Catch the knight.

The pawn is desperate to become a queen

White to move: Find the best opportunity.

Is it check or not?

White to move: Is the white king in check?

Rook checks

White to move: Check with the rook in such a way that the king can't capture it.

Bishop checks

Black to move: Check with the bishop in such a way that the king can't take it.

Knight checks

White to move: Give check with the knight.

Pawn checks

Black to move: Give check with a pawn move.

Queen checks

White to move: Check with the queen in such a way that Black can't take it.

Defending against check

Black to move: Find a defense.

Discovered check

White to move: Give a discovered check.

Discovered check winning a piece

Black to move: Win a piece.

Double check

White to move: Give double check.

Double check winning a piece

Black to move: Win a piece.

Checkmate

Is it checkmate or not?

Black to move: Has Black's king been checkmated?

Checkmate

Is it checkmate or not?

White to move: Has White's king been checkmated?

Stalemate

Is it stalemate or not?

Black to move: Is Black's king stalemated?

Stalemate

Is it stalemate or not?

White to move: Is White's king stalemated?

Checkmate and Stalemate

Is it checkmate or stalemate?

Black to move.
